

U.S. Patent Application Serial No. **10/589,968**
Response to OA dated May 26, 2010

REMARKS

Applicants have amended the claims to clarify the present invention. No new matter is involved.

In the Office Action. Claims 3, 8, 9, 10, 11, 12, 13, 17, 18 and 19 were indicated as allowable if rewritten in independent form. Allowable Claims 3, 8, 9 and 10 have been rewritten in independent form, herein, and all other remaining allowable claims made dependent thereon. New Claim 20 is added to a specific embodiment and is also dependent on the indicated allowable claims.

The objection to Claim 1 concerning the antecedent basis for “both sides of the top part” has been corrected in the claims.

Claims rejected on prior art in the Office Action, Claims 1, 2, 4, 5, 6 and 7 have been canceled, while rejected Claims 14 and 16 are now dependent upon indicated allowable claims. Also, Claims 11, 11, 17, 18 and 19 have been canceled as now being redundant.

In view of the present amendments, Claims 3, 8, 9, 10, 13, 14, 15, 16 and 20, are all based on indicated allowable claims and early action towards allowance thereof is respectfully requested.
